

Business Email powered by Microsoft® Exchange

Help employees to be more effective and productive and lets your company communicate and collaborate more effectively than with other email platforms.

Premium Migration
and Onboarding

Rapid Knowledgeable
Support

Preserve Capital
no hardware to deploy

Minimize Expenses
simple monthly fees

Microsoft
Exchange

Simplify your cloud services. There are certain IT services that you need simply to do business. CTIntegrators offers over a dozen cloud services that integrate together with other non-Microsoft applications.

Getting all your essential IT services from one provider simplifies your deployment resulting in one bill and one point of support.

BENEFITS OF HOSTED EXCHANGE

On-the-go productivity:

Business is no longer confined to the office. Exchange is designed specifically for touchscreens, mobile usability and offline productivity. It helps ensure your employees can be efficient regardless of location or device—even when they are offline.

Enhance core collaboration tools:

As the world's leading platform, Exchange unifies business email, calendar, contacts and other Microsoft® applications. It provides your employees with all the tools they need to work and collaborate with other colleagues. They can do it their way—where, when and how they want to.

Save capital

There's no need to purchase servers and license software, or spend weeks building or upgrading your infrastructure. With a predictable monthly per-user fee, you offload the costs of an on-premises deployment.

Add-On Features

Add Security & Compliance, Office Apps, File Sync & Share, Hosted Archiving, Email Protection and Video Conferencing.

CTIntegrators, Inc. brings over 30 years of IT and communications experience to assist your small to medium size business. As an Intel Gold Partner, Microsoft OEM Partner, Cisco Meraki Express Partner and Vertical Direct Partner, CTIntegrators specializes in integrating powerful hardware, software and security platforms designed to help Small & Medium Businesses (SMB) move to the Cloud smoothly and safely.
