applications

## Office 365

Office Apps provides you with the latest, most up-to-date versions of Microsoft Office for your desktop, mobile device, and the web.

Increase employee productivity by offering familiar and popular business applications. Office Apps offers an outstanding user experience and high productivity. They can work online or offline, from any device, wherever they go.

## THE BENEFITS OF OFFICE APPS

Office Apps – anywhere you need it:

- Desktop versions of Office – the familiar desktop applications you've always used to grow your business - Word®, Excel®, PowerPoint®, Outlook®, OneNote®, and Publisher® - available for up to 5 PCs devices per user.
- Web versions of Word, Excel, PowerPoint and Outlook, so you can be productive from any web browser.
- Mobile versions of Microsoft Office allow you to create, and edit documents on smartphones and tablets the go.

Reduce licensing headaches:

- Office Apps is offered on a subscription basis. Buy for all or just some employees in your business.
- Eliminated complicated licensing arrangements
- Simplify installation
- Get access to new versions of Office as soon as they're released – updates run automatically
- Turn a hefty one-time cost into a predictable, affordable monthly cost
